Sustainability

- As long as Department of IT (DIT) exists, localization work will continue
- Expand the scope of localization to colleges within the Royal Bhutan University
- Pool IT personnel from various agencies and manage them optimally by DIT

Vision beyond 2010

- Target MS platform
- Dzongkha LaTeX
- Google text search
- Speech recognition
- Machine translation
- Mobile interfaces/applications
- Text-to-speech system for commercialization

Vision beyond 2010

- OCR for commercialization
- Information retrieval
- Image/video retrieval
- Text mining and document classification

THANK YOU
